

Baseball batch 2 — sort worksheet

97 cards · Scans 476-486 · raw/ungraded July 2026 eBay-comp estimate · 24 individuals + 73 in 18 team lots, all LIVE on eBay

Total: \$124 – \$337 (typical ~\$224)

Sort verdict: mostly 2025 Topps Chrome rookies/prospects plus a run of base Panini Prizm legends (Nomar Garciaparra, Omar Vizquel, Jim Edmonds, Tim Salmon, Paul Molitor). **24 cards posted individually 2026-07-23** — real chase-prospect names (Marcelo Mayer, Jackson Jobe, Chase Dollander, Cam Smith, Dylan Crews, Cade Horton, Chandler Simpson, Hyeseong Kim, Kevin Alcantara, Brooks Lee, Eury Perez), established stars/legends with search-friendly names (Trout Fortune 15 insert, Vladimir Jr., Mason Miller, Jeremy Peña, the five Prizm legends), and the better copy of a few duplicated cards (Aroldis Chapman, Dustin May, David Bednar, Bryan Woo). Extra copies of those same cards were routed to the team lots instead of double-listing as singles. **Two corrections after JC physically pulled the batch (2026-07-23):** the Trout 'Fortune 15' insert is Trout only, not Trout/Ohtani as the title first said — title fixed on the live listing. Giancarlo Stanton's holiday insert card couldn't be located physically — that listing was ended rather than left up for a card that isn't in hand. **Everything else bundles into team lots of 5 cards or fewer** — mostly org-depth prospects and journeyman veterans without individual chase demand. Three small multi-team lots mop up leftover 1-2 card teams (Marlins, Nationals, Rockies, Mariners, Brewers, Cardinals, Diamondbacks, Orioles, Mets, Guardians, Phillies) rather than posting single-team lots too thin to bundle. Colton Gordon, Jake Mangum, and Chandler Simpson each showed up twice *within the same scan photo* (not two different scans) — confirmed as 2 real physical copies during pulling. Mike Yastrzemski's card prints a Royals uniform (he's a longtime Giant) — likely a Topps photo-variation quirk, not a misprint to correct.
