How to read this: prices are RAW/ungraded July 2026 eBay-SOLD estimates (sold, not asking — asks run higher). Most 2025 Prizm base and **Lazer** cards are common blaster-box parallels, so Lazer carries only a tiny premium over base — the bulk of the batch is \$1-4. The real value sits in a few cards: **Travis Hunter Lazer RC** and the **C.J. Stroud Premier relic** (both up to ~\$18), the **Rookie Gear relics** (Burden, Walker), and **Jayden Daniels**. Before pricing the three relic/swatch cards as base, confirm none are serial-numbered — a #d version is worth materially more. The Ricky Williams (Ravens) and Taylor Ward (BAL/Orioles) cards print teams the players aren't on — eyeball them. Valuation only, nothing posted.
