

# Scans 509-542 — eBay collision check + posting candidates

303 cards across 34 scans · 119 already live on eBay (\$723 of listings) · 47 clean posting candidates (typ ~\$281) · rest = lot/bulk

**Section 1 is the urgent one:** every card below matches a live listing at high confidence (same player + same insert, or same player + same brand + same parallel color). These are the physical copies of cards already posted — set each aside into the listed-inventory box, do NOT re-sell or lot them. Caveat: plain base cards can't be title-matched this way, so a few more collisions may hide among the base cards — if you remember listing it, set it aside.

## 1 · Already on eBay — set aside (119 cards)

Everything else: ~110 modern commons (Disco Prizm base, Score base, Mosaic base rookies of day-3 picks, etc.) — team-lot material per the usual 5-cards-or-fewer bundling; and 31 vintage/junk-wax cards (Pro Set, 90s Leaf/Edge/Pacific, playing-card oddballs) — bulk box, not worth individual effort. Duplicate-copy flags inside the candidates list (Gibbs, Hurts/Barkley, Maye, Watt) mean the same design appears twice in the batch — verify each is a real second physical card before posting both, same drill as the last batch.
