## Notes per card:

- SCP is HIGHER than CollX here — strong consensus. Numbered /8.
- CollX inflated. SCP \$10 raw. Scarcity premium for /6 bumps it up.
- \*SCP conf 0.60 — may be a bad match. Numbered /25 drives the ask.
- SCP says \$1.50 raw (TE, low demand) but /8 scarcity justifies premium.
- Kelce search traffic overrides raw guide. Strong name carry.
- SCP matched wrong card (Gold Prizm). Use CollX as anchor. Bowers is a name.
- Best consensus of the group — CollX and SCP within \$0.61 of each other.
- Always searched. Low raw guide but name carries bidding.
- CollX \$8.50 is way high vs SCP. Listing conservatively at \$3.99.
- Chrome RC. Low raw guide but RC premium and Egbuka is rising.
