Notes per card:

1. CollX inflated (retired WR). SCP raw \$2.38 but Silver Prizm parallel adds premium.
2. Best consensus this batch — CollX and SCP identical. Clean comp.
3. SCP raw low but Nacua is a live searched name. Numbers Prizm carries it.
4. *SCP matched wrong card (WNBA). CollX anchor. Serial number justifies premium.
5. *SCP matched wrong card (Allen Iverson). CollX anchor. SN/149 is the sell.
6. Rising WR2. SCP raw low but BTJ has strong collector demand in 2024 Select.
7. Chrome RC. Tight end RCs move. Warren had a strong rookie season.
8. Starting QB for Atlanta. Low raw guide but Falcons fan base buys.
9. Decent consensus. Allen always gets searched — name carry even at base price.
10. Pass rusher RC. Chrome RCs move fast. Good conf 0.97 on SCP match.
